Nervous System Answers

Figure 35-19 Alcohol slows down the rate at which the central nervous system functions. It slows down reflexes, disrupts coordination, and impairs judgment. For this reason, you should never get into a car with a driver who has been drinking. Figure 35-18 Legal drugs that are used for medical purposes can also be abused.

35-5 Drugs and the Nervous System

Section 35-5

Section 35-3: Divisions of the Nervous System The central nervous system relays messages, processes information, and analyzes information. The sensory division of the peripheral nervous system transmits impulses from sense organs to the central nervous system. The motor division transmits impulses from the central nervous system to the muscles or glands. Section 35-4: The Senses
