Understanding mechanical ventilators | Request PDF

Background . Dyspnea is one of the main complaints in a group of COPD patients due to exposure to sulfur mustard (SM) and is refractory to conventional therapies. We designed this study to evaluate effectiveness of nebulized morphine in such patients. Materials and Methods . In a double-blind clinical trial study, 40 patients with documented history of exposure to SM were allocated to two ...

Effect of Nebulized Morphine on Dyspnea of Mustard Gas ...

Respiratory arrest and increased PaCO 2 in the severely acidotic methanol-intoxicated cases have been suggested as a new marker.[7,8] The current study confirms earlier studies showing mortality correlating with the lack of compensatory hyperventilation in spite of and only when there is a profound metabolic acidosis.
