%RSD (relative standard deviation) is a statistical measurement that describes the spread of data with respect to the mean and the result is expressed as a percentage. The %RSD function is popular with non-statisticians as the interpretation is based on a percent result and not some abstract value.

### Excel Percent Relative Standard Deviation %RSD

At Paul Knopf Bigger, we passionately represent individuals across the country who have been seriously injured by defective products, drugs and medical devices or the negligence of others, while always remaining true to our small town principles and values.
