The Lunar Men The Friends

"The Lunar Men" shows not only how the Enlightenment illuminated intellectual curiosity and discovery but, in the way some of the Lunar Men challenged the norm and the Establishment, how the political suppression of their view of a freer society caused the separation of science from daily living and the irrational mistrust and patronizing view of scientists by the uneducated since.

Amazon.com: THE LUNAR MEN. The Friends who made the Future ...

In the late eighteenth century, the meetings of a few fertile minds changed an age. The original Lunar Men gathered together for lively dinner conversations, the journey back from their Birmingham meeting place lit by the full moon. They were led by the larger-than-life physician Erasmus Darwin, a man of extraordinary intellectual insight with his own pioneering ideas on evolution.

Lunar Men: An Introduction

Led by Erasmus Darwin, the Lunar Society of Birmingham was formed from a group of amateur experimenters, tradesmen and artisans who met and made friends in the Midlands in the 1760s. Most came from humble families, all lived far from the centre of things, but they were young and their optimism was boundless: together they would change the world.
